View source Share 150 220,000 110,000 Rare Epic Rare Entbrat Epic Entbrat Dawn of Fire Composer Entbrat Entbrat " The complex combination of elements that produce an Entbrat result in a truly gentle giant. This massive Monster's great bellow vibrates the particles of the world from the clouds in the sky to the stones in the ground. Entbrats are not notably intelligent. " Entbrat is a Quad Element Monster from Plant Island. Description The Entbrat is an enormous, round lime-green humanoid monster. Characteristics include a cavernous mouth, two large lower teeth, curved brown horns with one leave on each side, orange lips, a green leafy mane, beady eyes, and four-fingered hands and feet with yellow nails. This monster, arguably, has the strongest affinity with the Plant element out of all the monsters of the original game along with potbelly. Its shaggy mane of leaves travels down its arms and gives the impression of a beard under its chin. The Entbrat has two sets of horns; two tiny vestigial growths above its eyes, and two massive curved horns emerging from either side of its head. These larger horns have the consistency and texture of tree bark, and sprout leaf growth. Despite creatures from eggs lacking belly buttons, it has an "innie" belly button. It sways back and forth to the rhythm of an island's song, swinging its heavy arms. While singing, it will sometimes shut its eyes and clench its fists to deliver a particularly powerful note. On Tribal Island, the Entbrat occasionally scratches its belly. Song Audio sample: Voice actor: Erick Desjardins The Entbrat's contribution to an island's song is a loud, bellowing vocal line, recognizable by its rumbling quality and sustained notes of length. On Tribal Island, its song changes to "Hey-yo, heey-yo-hah!", similar to Mammott on Air Island. It has a deep, rumby voice. Breeding The Entbrat can be bred using monsters that combine to provide all the elements Plant, Earth, Water, and Cold without repeating any. The following pairs of 2-element monsters can be used to breed an Entbrat: + Shrubb and Maw + Oaktopus and Drumpler + Furcorn and Fwog However, the combination of a 3-element with 1-element monster has a higher rate of success: Of these, T-Rox+Potbelly and Bowgart+Noggin are the best combinations, as they have the lowest average breeding times in case of breeding failure. There is also a small chance of producing an Entbrat from a failed breeding attempt, using an Entbrat and a non-Single Element Monster. Like all Quad Element Monsters, Entbrats are hard to breed and these combinations may result in a parent monster as offspring instead. However, if you are fortunate enough to already possess both an Entbrat and a Rare Entbrat, the two can be bred together to create another Entbrat with a 100% success rate. The Rare version of any monster can be used for breeding instead of the common version. Earning Rate and Maximum Income Earning rate is in coins per hour and depends on Happiness % (Likes increase Happiness), also each monster has a limit to how much income it can hold at a time. Increasing the monster's level increases the limit. Likes Every monster has different things that they like. For every unique object that they like that's placed near the monster, the monster's happiness will increase by 25%. Placing more than one of the same liked item near a monster will still only increase its happiness by 25%. If there's a Unity Tree on the island, items don't need to be near the monsters. Below are the things liked by Entbrat: See the Likes page to view a complete list of all monsters' likes. Used in Breeding Wublin Egg Consumption While trying to breed other monsters (particularly monsters with a very low chance of breeding), the following Wublins can be used to "dispose of" Entbrat eggs immediately instead of putting them into a Nursery and having that Nursery not be available. Monster Egg Wublin 1 Wublin 2 Wublin 3 Wublin 4 Wublin 5 Wublin 6 Wublin 7 Entbrat Bona-Petite Dermit Dwumrohl Maulich Pixolott Thwok Zuuker 5 eggs 3 eggs 3 eggs 4 eggs 6 eggs 1 egg 2 eggs Note that bred monster eggs can only be "disposed of" into inactive Wublin statues; active Wublins do not accept monster eggs. Also note that inactive Wublin statues to which you have already disposed the number of Entbrat eggs that Wublin accepts, will no longer be available as a "recycle bin" for such eggs. Celestial Egg Consumption While trying to breed other Monsters (particularly Monsters with a very low chance of breeding), the following Celestials can be used to "dispose of" Entbrat eggs immediately instead of putting them into a Nursery and having that Nursery not be available. Monster Egg Celestial 1 Celestial 2 Celestial 3 Entbrat Plixie Blossom Galvana 5 eggs 3 eggs 1 egg Note that bred Monster eggs can only be "disposed of" into inactive Celestial statues; active Celestials do not accept Monster eggs. Also note that inactive Celestial statues to which you have already disposed the number of Entbrat eggs that Celestial accepts, will no longer be available as a "recycle bin" for such eggs. Strategy To see how efficient Entbrat is at generating resources compared to other monsters check: Name Origin The name "Entbrat" may be a combination between Ent (Tree creature from The Lord Of The Rings) and "brat". According to an interview Big Blue Bubble had with CARD Corporation, Monster designer Chris wondered what the bratty child of an Ent might look like, and thus was inspired to create Entbrat. Possible Monster Names To see all possible names for Entbrat, see Monster Names. Costumes Main article: Costumes Spooktacle On October 31st, 2012, the Entbrat put on lederhosen. This outfit was repeated for the 2013 season. In 2014, its Alpine hat acquired a red feather. This outfit was repeated for all subsequent seasons. (Except 2015.) Notes The Entbrat has the lowest high-income out of all the quad-element monsters. The Rare Entbrat was put on the market for 200 diamonds on November 25, 2014 for 4 days. Despite its bio, Entbrat's song doesn't appear to have any effect on the environment. The Entbrat is the first Quad-Element monster to have a rare counterpart as well as the first Quad-Element to have an epic counterpart. The Entbrat egg is similar to the Potbelly egg. On February 21, the Monster Handlers posted a "Name that Monster" puzzle, which consisted of a single bar of sheet music that matched up with a certain monster's song. The answer was quickly discovered to be the second half of the Entbrat's Plant Island song. There is an Entbrat plushie currently available, as seen here. More information on the Entbrat could also be seen on that link too. A group of Entbrats is called a moot. Each Entbrat represents a season and is slowly losing leaves per type. The Common Entbrat is green and represents spring, the Rare Entbrat is orange and yellow, representing fall and losing more leaves and the Epic Entbrat is pale without leaves which represents winter Gallery Community content is available under CC-BY-SA unless otherwise noted. how long does it take to breed an entbrat in my singing monsters. how to breed an epic entbrat in my singing monsters. how long does it take for a ghazt to breed. how long does it take to breed an entbrat
