The emotion of Ravi is moving when he faces a deep personal loss and then maintains anger in his eyes and body language for most of the screen time to make a strong connection with his character. In addition to the character of Jayam Ravi, all the others are written as mere caricatures that weaken the script. He is also a hacking specialist and handling several gadgets. Sujatha Vijayakumar made her first production venture have a quality appearance everywhere. The mental games used by the protagonist to avenge the villains in their life are convincing enough mainly and do not give us the space to think about the gaps. As Subash does not provide evidence that prove the association of young people with crime, he is suspended from the department. Each artist does what is required of them, but it is Jayam Ravi that shines in the role of an intelligent common man and in search of avengance. It will be that a "adanga maru" will touch one chord with the audience is still to be seen. Subash (Jayam Ravi) is a new recruitment subinspector that is as straight as they see. In retaliation, men with the help of the joint commissary (Sampath Raj) exterminate the family of the hero. A little more detailing about other characters, strong antagonists and best VFX photos could have made the movie a much better experience. The use of mobile technology to overcome opponents so powerful also awakens interest. Muniskanth and Azhagam Perumal are impressive as the good police officers, while the bad Sampath Raj, Mime Gopi, Babu Antony, Gajaraj Mathew Varghese and the four boys are just about okay-doke. The first half Define the character of the hero and his situation in an interesting and curiosity way is raised about how the hero will take on the police force and the powerful villains. Adanga Maru Synopsis: A sincere cop, who's suspended from the department for locking horns with a few influential people in the society, starts taking revenge against those who finished off his dear ones. Adanga Maru Review: Karthik Thangavel. Adanga Maru is about how a dejected and enraged cop puts up a fight against some powerful people with a lot of mind games and a little muscle power. Adanga Maru - Techno-driven revenge thriller Jayam Ravi has donned the khaki successfully in two films 'Thani Oruvan' and 'Bogan' and his third outing is with debutante Karthik Thangavel who has tried to dish out an age old wine in a new techno coated bottle. A frustrated Subash goes home to find his dear ones murdered. However, a superior cop (Sampath) comes to the criminals' rescue. He starts taking revenge against the youngsters and their parents one by one and dares the superior cop to avert it. Though the plot isn't anything new, the treatment which Karthik has given it, makes Adanga Maru fast-paced and interesting. Raashi Khanna appears as the love interest of Ravi and is an eye-ful in the romance and the song sequences. The rest of the screenplay is how Subash now a common man uses technology to wreak revenge on all the villains. Jayam Ravi is present in every frame from the beginning until the end and his acting is what keeps the audience hooked. An unabashed revenge drama, it also throws light on crimes, injustice meted out to the common people in our society, the corrupt system and how a common man becomes helpless without power. Subash (Jayam Ravi) is a very sensitive sub-inspector and an IPS aspirant, whose world revolves around his family and girlfriend (Raashi Khanna). Jayam Ravi's fit body build is another huge advantage as he has no difficulty in convincing the audience that he can beat up a dozen henchmen.
